POLYESTER

Designed to provide control and durability to players with long, fast strokes.

NYLON MULTIFILAMENT

Offers truly impressive comfort and power. Great for the arm.

NYLON

Delivers a good combination of playability and durability.

Don't see the string you use?

Let us know and we may have it or we will have something extremely similar that will create the same experience you are looking for.

TENSION

All Racquets have recommended tension range on racquet. Higher Recommended Tension = More Control

Lower Recommended Tension = More Power, better for arm

GAUGE

Higher Gauge = Thinner String. Thinner strings add more feel & spin on the ball, as well as better for the arm.
